Professional Summary

I'm a full-stack developer experienced in building modern, responsive websites and web applications for small and medium-sized businesses. Whether you need a custom company site, an interactive dashboard, or a fully functional web platform, I can help bring your ideas to life.

Skilled in HTML, CSS, JavaScript, React, Node.js, Python, Django, Wagtail, and MySQL, I handle both frontend and backend development.

I offer complete project management from design and development to deployment and maintenance ensuring that your product runs smoothly from start to finish.

Clear communication and reliability are priorities for me, so you'll always be updated throughout the process. Let's collaborate and build something great together.
